BLUETOOTH® HEADPHONE SYSTEM WITH SOUND BY JBL

SOUND BY
JBL

OUR STORY

The Earebel Story was born from the love to innovative design, sport and music, and the motivation to create a product of special value that combines these passions. A product that offers its wearers a opens up completely new, liberating access to mobility and activity and enables individual paths to nature, sport or the preferred retreat. We developed the idea of integrating headphones directly into caps together with our "Mum Pia" and designed the first caps and knitted them by hand.

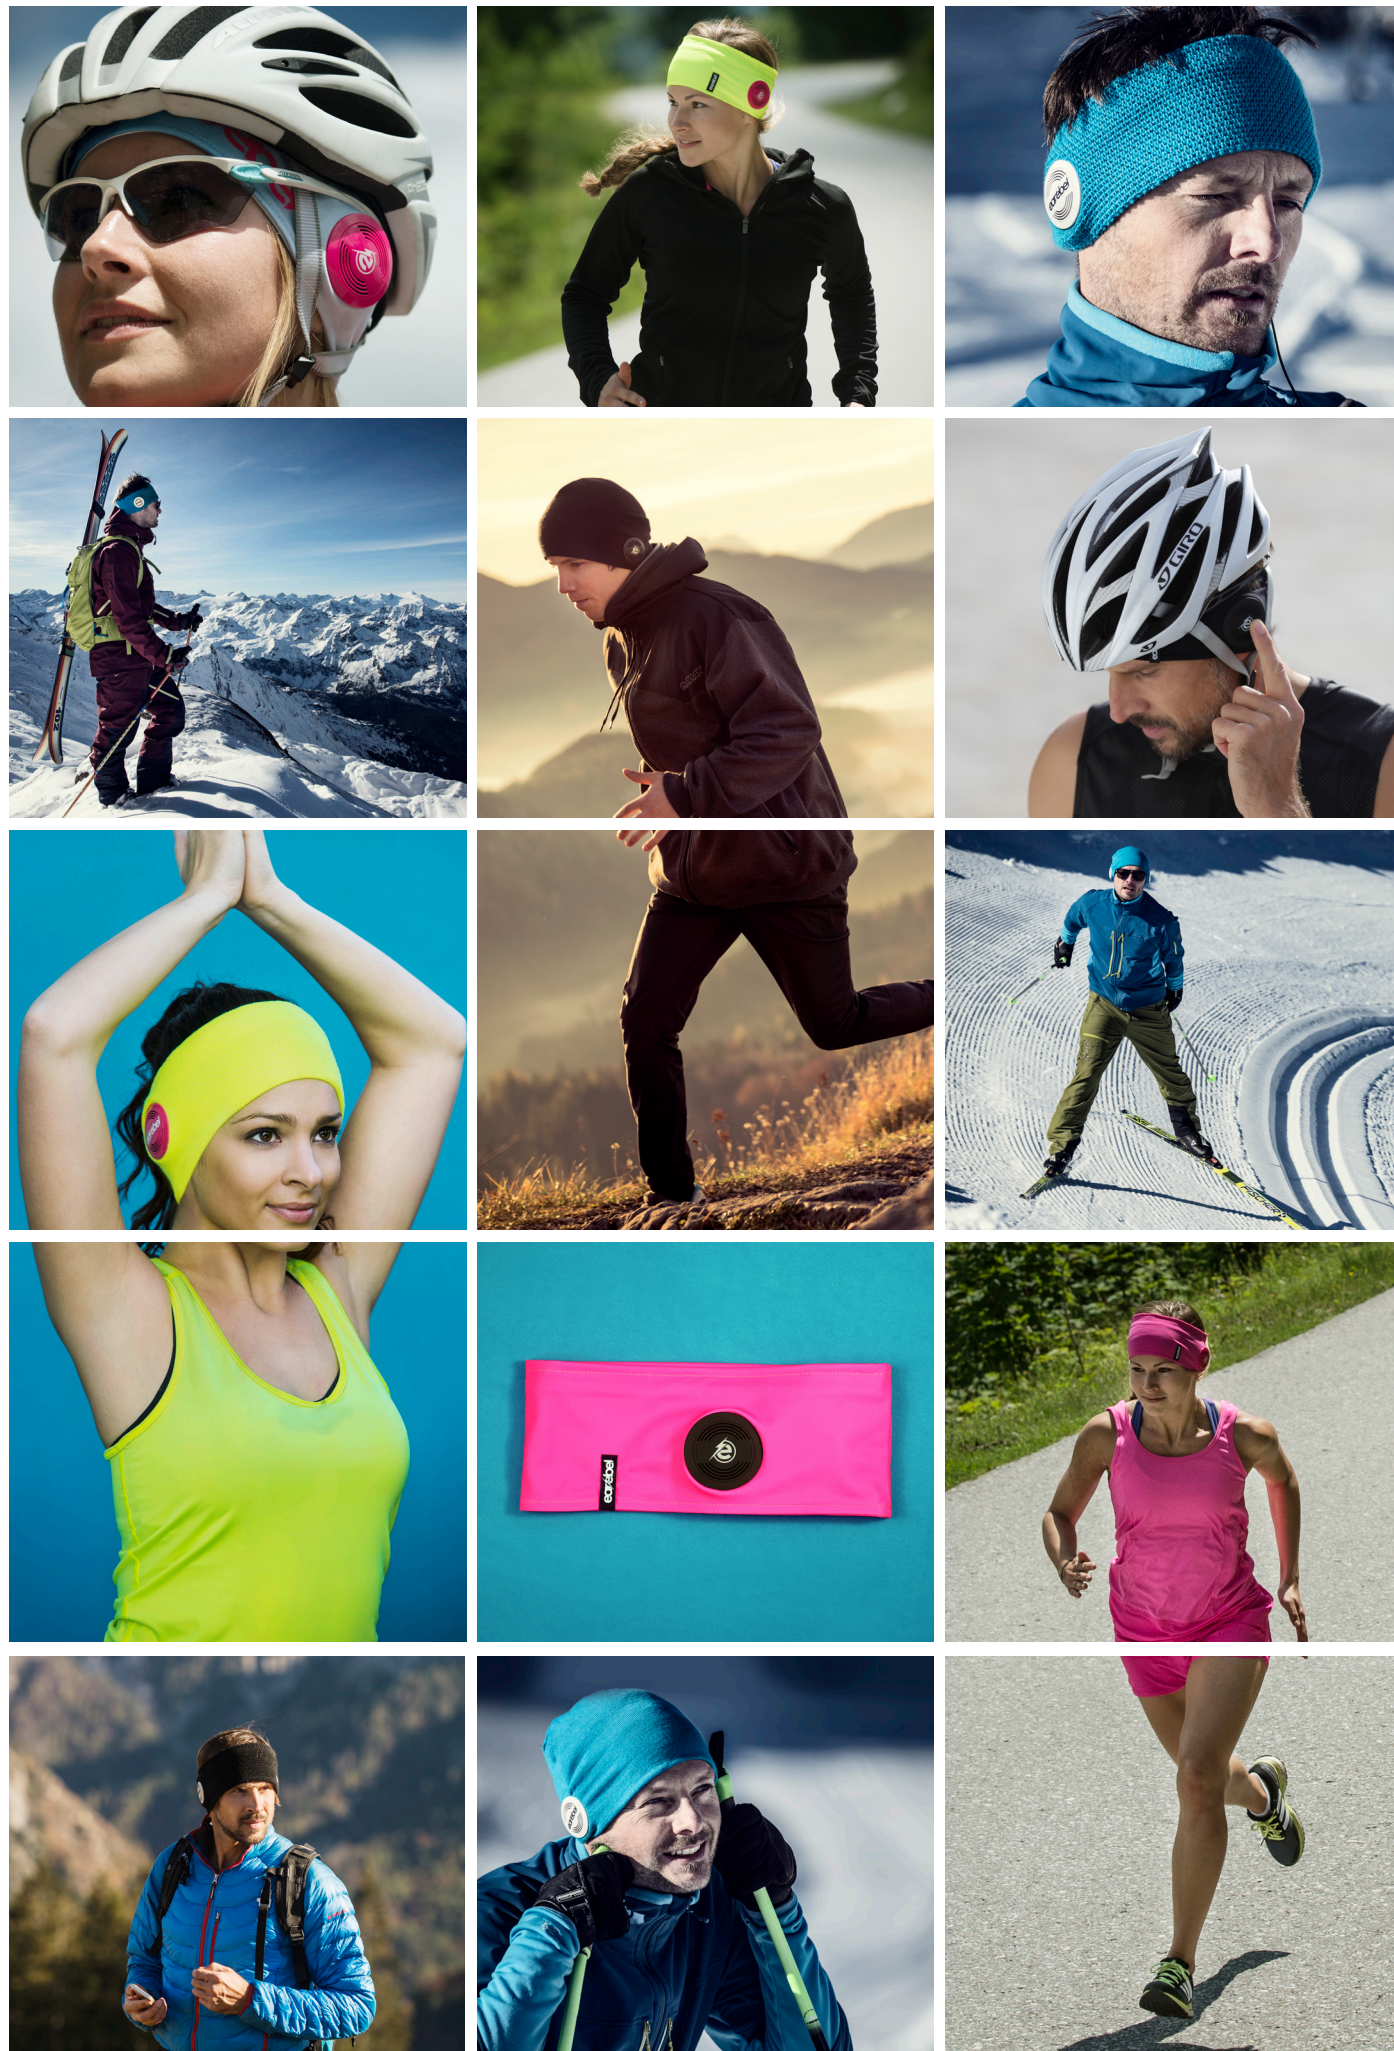

Even today - five years later - the quality control is still subject to Mama Pia, who together with her industrious knitters from the Allgäu region knits our Prime collection with great attention to detail and of course by hand.

OUR SYSTEM

Integrated and removable Bluetooth® Headphones with "Sound by JBL" combined with comfortable & functional headgear.

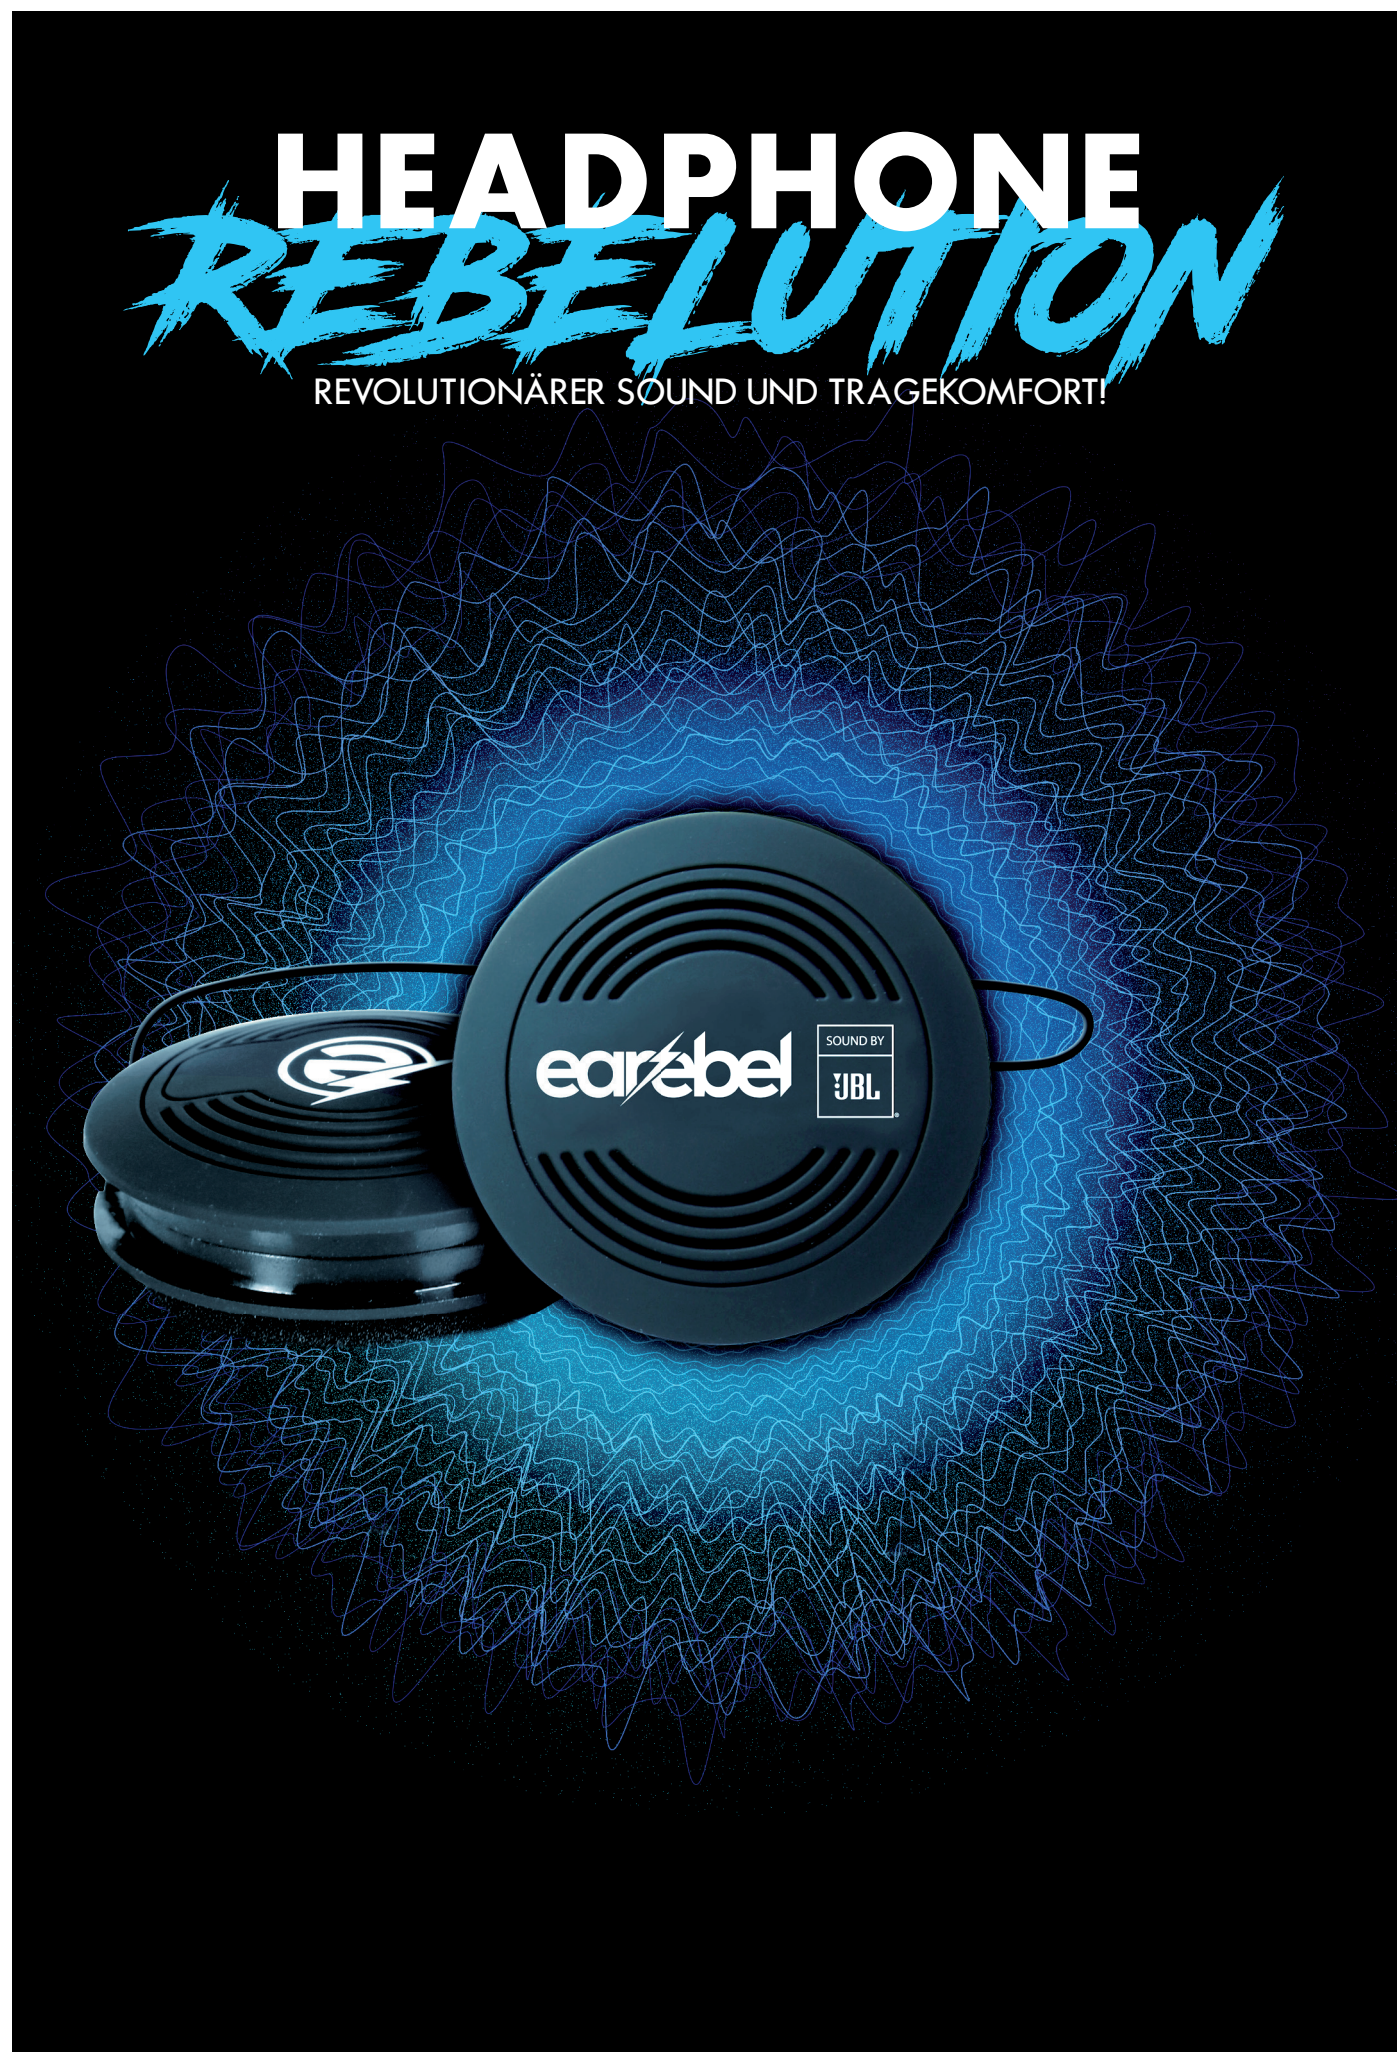

-  **High quality headphones "Sound by JBL"**, brilliant and bass-heavy
-  **Removable** on-ear Bluetooth® headphones
-  **Hands-free** phone calls or music
-  Built in **microphone**
-  Up to **8 hours battery time**
-  **Safety:** Ambient noises remain noticeable
-  **Comfortable wear** - because of headgear

SPORT HEADGEAR

The wearing comfort of a perfectly fitting beanie or headband can not be provided in this form by in-ear headphones or regular headphones with bracket. At some point, it will pinch or slip. That is why Earebel delights so many athletes worldwide and has become the only real alternative to all conventional sports bluetooth headphones.

Combined with JBL®-Technology and the highly functional materials we use, Earebel is the perfect ear sound system for any athletic challenge. We use only the best functional yarns and materials like POLARTEC®. Moisture is quickly removed from the skin and evaporates in the outer layers of the material. Earebel products fit on every head and for all ears thanks to the unique "Generic Ear-Fit" technology.

BLUETOOTH® HEADPHONES

earebel
BLUETOOTH® HEADPHONES

Earebel "Radical Sound Comfort": The removable, splash-proof Earebel headphones feature state-of-the-art Bluetooth® connectivity, use JBL technology and can also be used as a headset with telephone function thanks to the integrated microphone. Simply connect your smartphone or MP3 player and make hands-free calls or enjoy music - without any annoying feeling on or in your ears. Very easy according to the motto: "Push the Button & Push your Limits!"

The Earebel headphones can also be integrated into earpads of numerous ski and snowboard helmets or be worn with our headbands and caps under all kinds of helmets (e.g. ski, bike or climbing helmets).

TECHNICAL DATA:

- Bluetooth CSR V5.0 QC3003
- Bluetooth®-range: 10 meters
- Power supply: 3,7 V rechargeable battery (lithium polymer)
- Battery capacity: 180 mAh
- Battery lifetime: approx. 500 charge cycles
- Operating time: approx. 8 hours of operation on full volume approx. 30 hours on standby

HEADGEAR

The Elite Headband is the thinnest option of the functional Earebel headbands. It is a super thin, ultra light and breathable sports headband for the whole year. You won't feel you're wearing a headband - just pure sound & perfect wearing comfort! Ideal for indoor workout or at high temperatures, because the moisture is transported away by the breathable material Polartec®.

PRODUCT FEATURES

- Thin, breathable & quick-drying material;
- "Helmet Fit": Perfectly wearable under (ski, snowboard & bike) helmets;
- Headband width: 6cm

MATERIALS

POLARTEC®
